

NEW PHASE OVERVIEW

Acton Gardens is progressing with the design proposals for Phase 8.1 and 8.2 of the masterplan. This phase is a great opportunity to start linking up the phases being delivered in the south, west and north of the estate and creating the beginnings of a strong north-south route through the neighbourhood and a new street connecting with Brouncker Road.

This exhibition is to present initial ideas about layout, streets and the new homes, and we wish to engage with local residents and the wider public to help shape the evolving proposals for the regeneration of this area of the estate.
