## PODIUM GARDEN

The garden of 8.1 Plot D is designed to be a green oasis with a strong identity in order to achieve a sense of place.

- visually interesting from above and providing amenity for residents at ground level;
- communal encouraging residents to interact with central seating area;
- small evergreen trees creating a pedestrian scale with little shading;
- flowering and berrying shrubs for interest and biodiversity;
- lawns for lounging on;
- private patios bounded by evergreen hedges, with gates to the communal area.

1. Small tree - Photinia

2. Timber planter walls

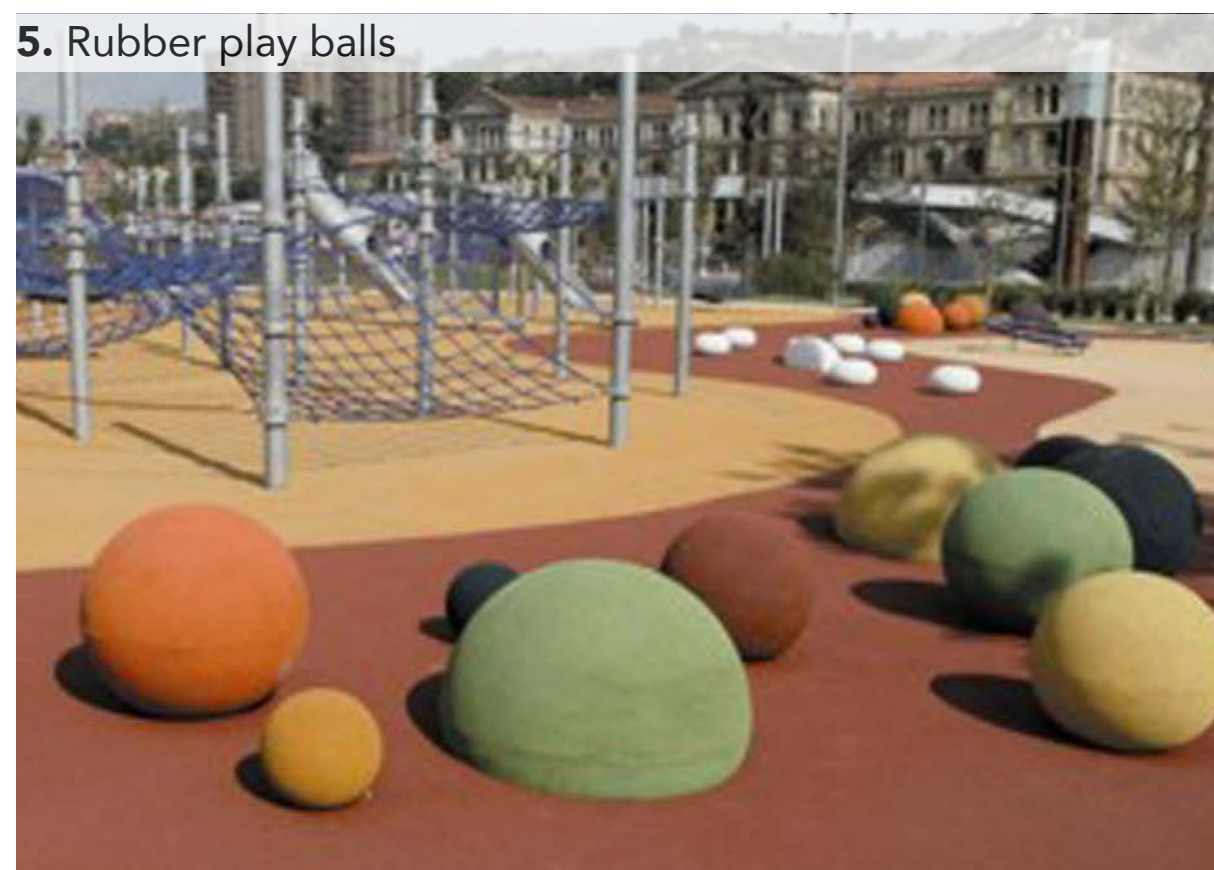

3. Light resin bound gravel

4. Sea Monster

5. Rubber play balls

6. Picnic table
